Company description :

Planet Expat provides career-boosting paid internships in some of the most innovative and dynamic Start-ups in Latin America, Europe and the USA. We connect students with promising start-ups abroad through a program that allows them to gain valuable professional experience in international environments while being key contributors to innovative projects.

We are currently hiring for the company below:

"We are a fast-growing and innovative company based in Santiago.

We make part of the very dynamic entrepreneurial ecosystem in Chile, which has become a major hub in Latin America for the development of start-ups and fast-paced companies. As a start-up ourselves, we are first-class contributors to this very innovative environment.

To accompany our business growth, we are looking for an enthusiastic junior back end developer trainee to join our team and be a key contributor to our projects. "

Job description :

Main Responsibilities:

- * Propose ideas to solve the problems through back-end technical solutions
- * Contribute to the future of our technical development
- * Work with our team to gather information about new requirements and help to plan the best way to implement them
- * Implement and test new features in our internal products

- * Can lead to a permanent full-time position

- * Please apply at planetexpat.org and mention the reference 150500
- * There is no Planet Expat fee

Required profile :

Required profile and skills:

- * Student (or graduate) in Bachelor or Master's degree in IT, Computer Sciences, Programming or related fields
- * Fluent English or Spanish
- * Experience with any of the languages: PHP, Ruby or Python
- * Experience with relational databases, such as MySQL or PostgreSQL
- * Reliability and sense of responsibility
- * Very organized
- * Eager to work in a dynamic, cutting-edge startup
- * Fast learner and easily adaptable to new and existing frameworks and tools
- * Source of ideas and solutions
