PLANET EXPAT IS HIRING A FULL STACK DEVELOPMENT INTERN FOR INTERNSHIP FROM 3 TO 6 MONTHS.

Date : 04/01/2016

Job reference : 151015-11778512
Function : Information systems / Telecom (Programmer Analyst)
Type of contract : Internship
Localisation : Bergamo xx, IT
Contract duration : From 3 to 6 months
Level of studies : Bachelor's Degree
Years of experience : 6 months - 1 year

Company description :
Planet Expat provides career-boosting paid internships in some of the most innovative and dynamic Start-ups in Latin America, Europe and the USA. We connect students with promising start-ups abroad through a program that allows them to gain valuable professional experience in international environments while being key contributors to innovative projects.

We are currently hiring for the company below:

"We are an Italian startup developing a solution that will revolutionize the way we interact with media. Our aim is to democratize the access to real-time, impartial information by allowing our users to become reports for their favorite media outlets. We are developing a mobile app that lets our users record themselves expressing their opinions about a trending topic or broadcasting news on the spot and in real time.

We have been selected to participate in one of the most important startup accelerators in Latin America, which allowed us to develop a first beta version of our product. We are now back in Europe with exciting expansion plans for 2016.

We are currently looking for an entrepreneurial-minded web development intern to help us redefine our image. You will be in charge of updating and upgrading our online platform. We are looking for someone passionate about what we do, since you could potentially become our CTO. You will take a very important role within our web development efforts and will work side by side with our founders. "

Job description :
Main Responsibilities:
* Help with software architecture and our development efforts
* Lead and manage the ideation, road mapping, and coding of new and existing projects
* Lead, coordinate and manage new projects
